AFFIDAVIT OF PUBLICATION

STATE OF CONNECTICUT
COUNTY OF FAIRFIELD

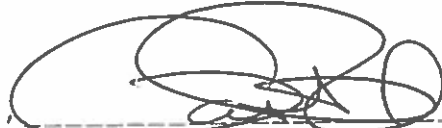

NOTICE OF VITURAL PUBLIC MEETING
City of Bridgeport
Igor I. Sikorsky Memorial Airport
Environmental Assessment - Runway 11/29 Safety Area Improvements

The City of Bridgeport (City), in conjunction with the Federal Aviation Administration (FAA), has initiated an Environmental Assessment (EA) to evaluate proposed safety improvements to Runway 11-29 at Igor I. Sikorsky Memorial Airport (BDR) in Stratford, Connecticut. The EA is being prepared in compliance with the National Environmental Policy Act of 1969 (NEPA) and with FAA Orders 1050.1F and 5050.4B.

The proposed improvements, as shown on the FAA-approved Airport Layout Plan (ALP), include reconstructing portions of Runway 11-29, shifting the runway to the west approximately 150 feet, grading non-standard Runway Safety Areas (RSAs), installing Engineered Materials Arresting Systems (EMAS) on both ends of the runway, miscellaneous pavement removal, and removing both on and off airport obstructions (trees) to the approach surfaces of Runway 11-29. The project does not extend the length or capacity of the runway.

The City invites the public to attend a virtual public meeting on Thursday, January 20, 2022 from 6:00 to 7:30 P.M. A link to the meeting will be posted on the project website (<http://www.planbdraairport.com/content/meetings>) by Monday January 17, 2022. The purpose of the meeting is to share information, invite comments, and update the public on the proposed project. A brief presentation discussing the EA process, the proposed improvements, the purpose and need for the project, preliminary alternatives, and studies completed to date will begin at 6:00 P.M. Representatives from the City and the Project Team will be available to answer questions after the presentation.

Written comments are requested from interested parties and may be submitted during or after the public meeting. Comments can also be submitted via the project website (<http://www.planbdraairport.com/content/contact>). A second and final public meeting will be scheduled later in 2022 after the full Draft EA document is released for public review.

I, 
Being duly sworn, depose and say that I am a Representative in the employ of HEARST CONNECTICUT MEDIA GROUP, Publisher of the Fairfield Citizen Ne, that a LEGAL NOTICE as stated below was published in the Fairfield Citizen Ne.

Subscribed and sworn to before me on this 10th Day of January, A.D. 2022.

TODAY'S AGENDA

- Environmental Assessment (EA) Process
- Roles & Responsibilities
- Airport Background
- Purpose & Need
- Sponsor's Proposed Action
- Alternatives Overview
- Environmental Studies
- Next Steps
- Comments

WHAT'S THE PURPOSE OF THIS MEETING?

- Learn about the safety improvements proposed for Runway 11-29
- Learn about the Environmental Assessment (EA) process
- Learn about some of the on-going studies
- Collect & address comments

Runway 11 (Runway 29 Stop End)

NATIONAL ENVIRONMENTAL POLICY ACT

- Signed into federal law in 1970
- Only applies to “federal actions”, which can be projects, policies, permitting, and licensing
- What’s a federal action?
 - Approval of an Airport Layout Plan
 - New or revised air traffic procedures
 - Grant funding under the Airport Improvement Program (AIP)

WHAT'S AN ENVIRONMENTAL ASSESSMENT?

- Concise document describing a project's potential impact
- Satisfies compliance with the NEPA
- Process Oriented

ROLES & RESPONSIBILITIES

- City of Bridgeport – Airport sponsor
 - Responsible for development of EA (via Consultant)
 - Must obtain environmental approval prior to applying for federal assistance for design and construction
- Federal Aviation Administration (FAA) – Lead federal agency
 - Oversight during process
 - Reviews documentation & regulatory agency/public comments
 - Issues environmental finding

GENERAL AVIATION AIRPORTS: A NATIONAL ASSET

- Four categories of GA Airports
 - National – Provides communities with access to national and international markets
 - Regional – Connects communities to statewide and interstate markets
 - Local – Provides access primarily to intrastate and some interstate markets
 - Basic – supports activities such as emergency service, charter service, cargo operations, flight training, and personal flying
- BDR is a National General Aviation Airport!

KEY AIRPORT FEATURES

- Property Encompasses Approximately 750 acres
- Two Active Runways
- Nine Designated Taxiways
- 149 Based Aircraft
- Hangars and Parking Aprons
- 11 Major Tenants

RUNWAY 11-29

- Longest Runway at 4,761' x 150'
- Preferred runway for noise abatement
- Deteriorating pavement

AIRCRAFT TYPES AT BDR

A-I

Piper Cherokee

Cessna 150

B-II

King Air 200

Citation X

C-II

Bombardier Challenger

Gulfstream 450

C-III

Gulfstream 550

PURPOSE & NEED

- Purpose for the Project: Provide a runway that complies with FAA design standards to the extent practicable while maintaining existing runway length
- Need(s) for the project:
 - Provide Standard Runway Safety Areas (RSA)
 - Eliminate obstructions to approach surfaces
 - Reduce wildlife attractants
 - Maintain existing runway length
- Master Plan & Airport Layout Plan (ALP) - 2021

Airport Master Plan
Igor I Sikorsky Memorial Airport
FINAL REPORT
January 2021

Prepared by:
CHA

Prepared for:

WHAT IS A RUNWAY SAFETY AREA?

- Area surrounding runway to reduce risk of injury to people or aircraft if there is an excursion from the runway, and overrun, or underrun.
- FAA standards
 - Clear and graded with no surface variations
 - Properly drained to prohibit standing water
 - Capable of supporting emergency vehicles
 - Free of objects
 - Extends 1,000' beyond runway ends
 - 250' off runway centerline (500' wide)

ELIMINATE NON-STANDARD RSA

- Purpose for the Project: Safety!
 - Provide a runway that complies with FAA design standards to the extent practicable while maintaining existing runway length

ELIMINATE OBSTRUCTIONS

OTHER NEEDS

- Maintain existing runway length
- Reduce existing wildlife attractants

SPONSOR'S PROPOSED ACTION

RUNWAY 11-29 ALTERNATIVES

- Preliminary alternatives developed using FAA Order 5200.8: Runway Safety Area Program
 - Construct a traditional RSA
 - Relocation, shifting, or realigning the runway
 - Reduction in runway length
 - A combination of relocation, shifting, realignment, or reduction in length
 - Declared distances
 - Engineered Materials Arresting System (EMAS)

ORDER

U.S. DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION

5200.8

SUBJ: RUNWAY SAFETY AREA PROGRAM

1. PURPOSE.

This order establishes

- a. The Federal Aviation Administration's (FAA) Runway Safety Area (RSA) Program and
- b. The procedures that FAA employees will follow in implementing that program.

2. DISTRIBUTION.

This order is distributed to the division level in the Office of Airport Safety and Standards and the Office of Airport Planning and Programming; to the division level in the regional Flight Standards, Airway Facilities, and Air Traffic Divisions; to the branch level in the regional Airports Divisions; and a standard distribution to all Airport District Offices.

3. EFFECTIVE DATE. October 1, 1999

4. BACKGROUND.

The RSA is an integral part of the runway environment. RSA dimensions are established in AC 150/5300-13, *Airport Design* and are based on the Airport Reference Code (ARC). The RSA is intended to provide a measure of safety in the event of an aircraft's excursion from the runway by significantly reducing the extent of personal injury and aircraft damage during overruns, undershoots and veer-offs.

5. OBJECTIVE

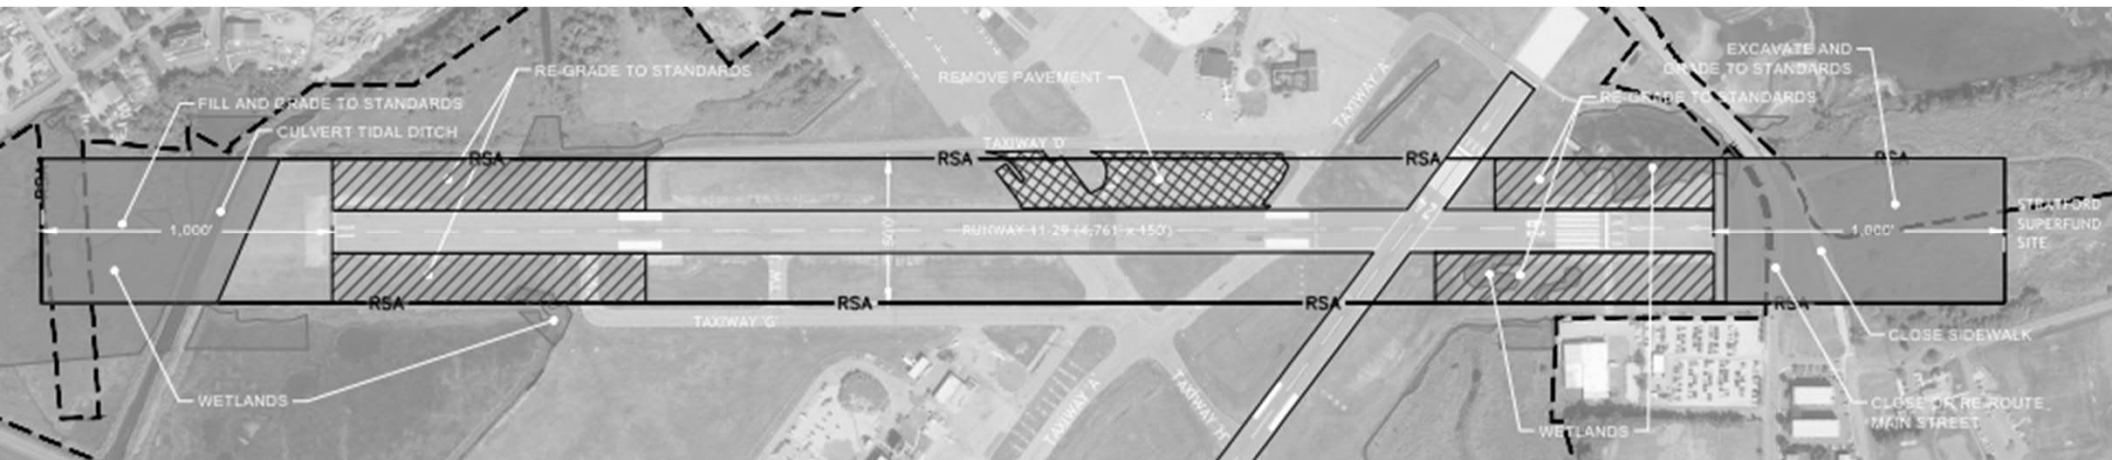

The objective of the Runway Safety Area Program is that all RSAs at federally obligated airports and all RSAs at airports certificated under 14 Code of Federal regulations (CFR) part 139 shall conform to the standards contained in AC 150/5300-13 *Airport Design*, to the extent practicable.

6. RESPONSIBILITY AND DELEGATION OF AUTHORITY.

- a. The Regional Airports Division Manager ensures that the program is implemented in accordance with the procedures provided in this directive.
- b. The Regional Airports Division Manager approves all RSA determinations required by Paragraph 8.0 of this order. This authority may be delegated to the ADO Manager, only when it is determined practicable to obtain the RSA.

Dist: A-W(AS/AP)-2; A-X (FS/AF/AT)-2; A-X(AS)-3; A-FAS-0 (STD) Initiated by AAS-310

ALTERNATIVE 1: CONSTRUCT STANDARD RSA

ALTERNATIVE 2: RELOCATE OR REALIGN

- Confined by the surrounding residential area to the south (Lordship neighborhood)
- Commercial and industrial development to the north, east, and west
- Sensitive environmental areas

ALTERNATIVE 3: REDUCE RUNWAY LENGTH

- Reduce the runway length
- To obtain standard RSA beyond the runway ends for takeoff - 3,761 feet.
- Any reduction in the existing length of 4,761 feet was considered not feasible
- Runway length requirement at BDR is 5,700'

ALTERNATIVE 4: DECLARED DISTANCES

ALTERNATIVE 5: INSTALL EMAS

ALTERNATIVE 6: NO-BUILD ALTERNATIVE

- Serves as a baseline to compare future conditions and impacts
- Considers taking no action for improving the safety areas on Runway 11-29
- Non-standard runway safety areas off the ends and sides of Runway 11-29 would remain

ALTERNATIVE SCREENING

- Level 1: Meets purpose & need
 - Improves existing RSA
 - Maintains existing runway length
- Level 2: Other requirements
 - Practicality & feasibility
 - Avoid & minimize environmental impacts

Level 1 – Purpose & Need			
Alternative	Improve Existing RSA	Maintains Existing Runway Length	Carry Forward to Level 2?
Alternative 1: Construct Standard RSA	Yes	Yes	Yes
Alternative 2: Relocate or Realign Runway	Yes	No	No
Alternative 3: Reduce Runway Length	Yes	No	No
Alternative 4: Declared Distances	Yes	No	No
Alternative 5: Install EMAS	Yes	Yes	Yes

ALTERNATIVE 5A: SHIFT 150' & INSTALL EMAS

ALTERNATIVE 5B: SHIFT 300' & INSTALL EMAS

ENVIRONMENTAL RESOURCES

- Air Quality
- Biological Resources
 - Federal & state protected plants & animals
- Climate
- Coastal Resources
- DOT Act, Section 4(f)
- Farmlands
- Hazardous Materials
- Historic & Cultural Resources
- Land Use
- Natural Resources & Energy Supply
- Noise
- Socioeconomics & Environmental Justice
- Visual Impacts
- Water Resources
 - Wetlands
 - Floodplains
 - Surface Waters
 - Ground Water
 - Wild & Scenic Rivers

SUPPORTING STUDIES

- Wetland delineations
- Threatened & endangered species surveys
- Archeological investigations
- Construction emissions inventory
- Utilize Part 150 Noise Compatibility Study
- 2021 Master Plan Update

STUDY WEBSITE

Project Introduction

The City of Bridgeport is preparing an Environmental Assessment (EA) to evaluate the potential impacts of Igor I. Sikorsky Memorial Airport's (BDR) proposal to improve the Runway Safety Area (RSA) for Runway 11-29. The EA will evaluate the potential for direct and indirect impacts to the human and natural environment. To ensure BDR continues to meet current and future demand and to comply with Federal Aviation Administration (FAA) design standards, the City of Bridgeport is proposing to implement the following improvements (Proposed Action), as recommended in the FAA approved Master Plan. The Sponsor's Proposed Action (Click to Download) is:

- Shift Runway 11-29 to the west
- Install Engineered Materials Arresting Systems on both ends of the runway to meet FAA design standards
- Grade lateral RSA to meet FAA design standards
- Reconstruct portions of existing Runway 11/29
- Remove on and off tree obstructions within the approaches of Runway 11 and 29

What is the Purpose & Need?

The purpose of the project is to provide a runway and associated airfield improvements that comply with FAA design standards while meeting the runway length operational requirements for both the existing and future fleet mix. The need for the project is to address non-standard FAA design criteria and increase safety for
